by designing them to balance the needs and priorities of all users. These users typically include motorists, pedestrians, bicyclists and transit users. Complete Streets are often implemented through state or local transportation policies, state laws and regulations, or city ordinances. Complete Streets Simply put, a street or transportation system is complete if it provides the design and infrastructure elements required to serve each mode of travel whether on foot, by bicycle, on transit, or in an automobile. Complete streets policies help to ensure that all road users, including our most vulnerable, are provided with the facilities they need to safely navigate city streets, sidewalks, and off-street paths.
